**AVEANNA HEALTHCARE HOLDINGS ANNOUNCES  
FOURTH QUARTER AND FULL YEAR 2021 FINANCIAL RESULTS**

- *Fiscal year 2021 revenue increased 12.3% to \$1,678.6 million, compared to fiscal year 2020*
- *Fiscal year 2021 had 52 weeks compared to 53 weeks in 2020; Q4 2021 had 13 weeks compared to 14 weeks in Q4 2020*
- *Net loss was \$117.0 million for fiscal year 2021; primarily attributable to a \$117.7 million non-cash charge for goodwill impairment recorded in the fourth quarter*
- *Fiscal year 2021 Adjusted EBITDA increased 20.9% to \$184.2 million; margin expanded by 80 basis points*
- *Completed initial public offering and began trading on the Nasdaq in April*
- *Completed strategic acquisitions of Doctor's Choice in April, Accredited in November, and Comfort Care in December*

**Atlanta, Georgia** (March 28, 2022) – Aveanna Healthcare Holdings, Inc. (NASDAQ: AVAH), a leading, diversified home care platform focused on providing care to medically complex, high-cost patient populations, today announced financial results for the three-month period and fiscal year ended January 1, 2022.

Tony Strange, Chief Executive Officer, commented “We are pleased with our accomplishments during 2021 as we completed our IPO, closed three strategic acquisitions, grew the business, and demonstrated the resiliency of our business model as we executed our strategic plan during a challenging year.

Over the course of 2021 and through multiple COVID-19 variants, our caregivers and support staff showed great compassion and perseverance in delivering on our important mission for our patients and their families. Our team’s commitment to each other and our mission is what makes us truly special. While the Omicron variant has created labor supply pressures for us in the fourth and first quarters, the high demand for our services, as well as the support we are receiving from state and federal governments, continue to underscore our value proposition over the long-term. The integration of our Accredited Nursing Services and Comfort Care Home Health Services acquisitions completed in the fourth quarter is progressing as expected, and we look forward to the growth opportunities ahead of us in 2022.”

*Three-Month Periods Ended January 1, 2022 and January 2, 2021*

Revenue was \$414.1 million for the fourth quarter of 2021, as compared to \$422.3 million for the fourth quarter of 2020, a decrease of \$8.2 million, or 1.9%. The overall decrease in revenue was primarily attributable to a \$35.6 million decrease in Private Duty Services (“PDS”) segment revenue from the year ago quarter, net of a \$31.3 million increase in Home Health & Hospice (“HHH”) segment revenue. The Omicron variant pressured our PDS clinical workforce in the fourth quarter of 2021, constraining caregiver recruitment and retention efforts, as well as PDS patient volumes. PDS revenue was also lower in the fourth quarter of 2021 as compared to the fourth quarter of 2020 due to the absence of a 14th week of operations in the fourth quarter of 2021.

Gross margin was \$124.4 million, or 30.0% of revenue, for the fourth quarter of 2021, as compared to \$126.2 million, or 29.9% of revenue, for the fourth quarter of 2020, a decrease of \$1.8 million, or 1.4%.

Net loss was \$126.2 million for the fourth quarter of 2021, as compared to a net loss of \$9.7 million for the fourth quarter of 2020, and net loss per diluted share was \$0.68 for the fourth quarter of 2021, as compared to a net loss per diluted share of \$0.07 for the fourth quarter of 2020. Adjusted net income per diluted share was \$0.10 for the fourth quarter of 2021, as compared to \$0.09 for the fourth quarter of 2020.

Adjusted EBITDA was \$45.8 million, or 11.1% of revenue, for the fourth quarter of 2021 as compared to \$45.2 million, or 10.7% of revenue, for the fourth quarter of 2020.

## Years Ended January 1, 2022 and January 2, 2021

Revenue was \$1,678.6 million for fiscal year 2021, as compared to \$1,495.1 million for fiscal year 2020, an increase of \$183.5 million, or 12.3%. Aveanna had a 53-week fiscal year in 2020 compared to a 52-week fiscal year in 2021. Gross margin was \$542.4 million, or 32.3% of revenue, for fiscal year 2021, as compared to \$454.5 million, or 30.4% of revenue, for fiscal year 2020, an increase of \$87.9 million, or 19.3%.

Net loss was \$117.0 million for fiscal year 2021, as compared to a net loss of \$57.1 million for fiscal year 2020, and net loss per diluted share was \$0.69 for fiscal year 2021, as compared to a net loss per diluted share of \$0.40 for fiscal year 2020. Adjusted net income per diluted share was \$0.42 for fiscal year 2021 as compared to \$0.28 for fiscal year 2020.

Adjusted EBITDA was \$184.2 million, or 11.0% of revenue, for fiscal year 2021 as compared to \$152.4 million, or 10.2% of revenue, for fiscal year 2020, an increase of \$31.8 million, or 20.9%.

### **Cash Flow, Debt and Liquidity**

- Net cash used by operating activities in fiscal year 2021 was \$11.4 million. This included \$38.1 million of cash repaid to government agencies in 2021 related to the following Cares Act items:
  - \$25.9 million paid to the IRS for payroll taxes deferred in 2020, and
  - \$12.2 million paid to CMS for advances received in 2020
- As of January 1, 2022, we had cash of \$30.5 million and bank debt of \$1,392.9 million, with the following availability under our credit facilities:
  - \$182.4 million of available borrowing capacity under our revolving credit facility
  - \$30.0 million of availability under our securitization facility, and
  - \$200.0 million of availability under our delayed draw term loan facility for future acquisitions.
- Our interest rate exposure under our credit facilities are hedged with the following instruments:
  - \$520.0 million notional amount of interest rate swaps that convert variable rate debt to a fixed rate
  - \$880.0 million notional amount of interest rate caps that cap our exposure to LIBOR increasing beyond 3.0%

David Afshar, Chief Financial Officer, commented “Our 2021 operating results underscore the resilience of the Aveanna team amidst a challenging operating environment. We believe that our IPO and subsequent capital structure improvements have prepared us to take advantage of the opportunities ahead of us, with liquidity that is supportive of our 2022 acquisition goals.”

### **M&A Update**

- On November 30, 2021, we acquired Accredited Nursing Services (“Accredited”), a provider of primarily unskilled services (PDS segment) in the state of California. Accredited generated revenues in fiscal year 2021 of approximately \$116.0 million.
- On December 10, 2021, we acquired Comfort Care Home Health Services, LLC and subsidiaries and affiliates (“Comfort Care”), which provides home health and hospice services (HHH segment) in the states of Alabama and Tennessee. Comfort Care generated revenues in fiscal year 2021 of approximately \$100.0 million.
- Total revenues generated by the 2021 HHH Acquisitions and Accredited in fiscal year 2021, including the periods in 2021 prior to being acquired by us, were \$290.9 million.

Rod Windley, Executive Chairman, commented, “As we entered 2021, we expected to complete acquisitions generating \$175 million of annualized revenue, and we are pleased to have surpassed those expectations. With the acquisitions of Doctor’s Choice, Accredited and Comfort Care, we have added three new companies that, including pre-acquisition periods, generated more than \$290 million of revenue for 2021 to the Aveanna family that allowed us to expand our service offering and national footprint. And, we continue to have a robust pipeline of potential targets to drive our strong growth trajectory.”

## Full Year 2022 Guidance

- Revenue in a range of \$1,890 million to \$1,920 million.

We are not providing guidance on net income at this time due to the volatility of certain required inputs that are not available without unreasonable efforts, including future fair value adjustments associated with our interest rate swaps and caps.

- Adjusted EBITDA in a range of \$190 million to \$205 million, and returning to a \$215 million to \$225 million annualized run rate in the second half of 2022

## Non-GAAP Financial Measures

In addition to our results of operations prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), we also evaluate our financial performance using EBITDA, Adjusted EBITDA, Field contribution, Field contribution margin, Adjusted corporate expense, Adjusted net income and Adjusted net income per diluted share. Given our determination of adjustments in arriving at our computations, these non-GAAP measures have limitations as analytical tools and should not be considered in isolation or as substitutes or alternatives to net income or loss, revenue, operating income or loss, cash flows from operating activities, total indebtedness or any other financial measures calculated in accordance with GAAP.

### *EBITDA and Adjusted EBITDA*

EBITDA and Adjusted EBITDA are non-GAAP financial measures and are not intended to replace financial performance measures determined in accordance with GAAP, such as net income (loss). Rather, we present EBITDA and Adjusted EBITDA as supplemental measures of our performance. We define EBITDA as net income (loss) before interest expense, net; income tax (expense) benefit; and depreciation and amortization. We define Adjusted EBITDA as EBITDA, adjusted for the impact of certain other items that are either non-recurring, infrequent, non-cash, unusual, or items deemed by us to not be indicative of the performance of our core operations, including impairments of goodwill, intangible assets, and other long-lived assets; non-cash, share-based compensation; sponsor fees; loss on extinguishment of debt; fees related to debt modifications; the effect of interest rate derivatives; acquisition-related and integration costs; legal costs and settlements associated with acquisition matters; the discontinuation of our ABA Therapy services; non-acquisition related legal settlements; and other system transition costs, professional fees and other costs. As non-GAAP financial measures, our computations of EBITDA and Adjusted EBITDA may vary from similarly termed non-GAAP financial measures used by other companies, making comparisons with other companies on the basis of this measure impracticable.

We believe our computations of EBITDA and Adjusted EBITDA are helpful in highlighting trends in our core operating performance. In determining which adjustments are made to arrive at EBITDA and Adjusted EBITDA, we consider both (1) certain non-recurring, infrequent, non-cash or unusual items, which can vary significantly from year to year, as well as (2) certain other items that may be recurring, frequent, or settled in cash but which we do not believe are indicative of our core operating performance. We use EBITDA and Adjusted EBITDA to assess operating performance and make business decisions.

We have incurred substantial acquisition-related costs and integration costs in fiscal years 2021 and 2020. The underlying acquisition activities take place over a defined timeframe, have distinct project timelines and are incremental to activities and costs that arise in the ordinary course of our business. Therefore, we believe it is important to exclude these costs from our Adjusted EBITDA because it provides us a normalized view of our core, ongoing operations after integrating our acquired companies, which is an important measure in assessing our performance.

### *Field contribution and Field contribution margin*

Field contribution and Field contribution margin are non-GAAP financial measures and are not intended to replace financial performance measures determined in accordance with GAAP, such as operating income (loss). Rather, we present Field contribution and Field contribution margin as supplemental measures of our performance. We define Field contribution as operating income (loss) prior to corporate expenses and other non-field related costs, including depreciation and amortization, acquisition-related costs, and other operating expenses. Field contribution margin is Field contribution as a percentage of revenue. As non-GAAP financial measures, our computations of Field contribution and Field contribution margin may vary from similarly termed non-GAAP financial measures used by other companies, making comparisons with other companies on the basis of these measures impracticable.

We believe Field contribution and Field contribution margin are helpful in highlighting trends in our core operating performance and evaluating trends in our branch and regional results, which can vary from year to year. We use Field contribution and Field contribution margin to make business decisions and assess the operating performance and results delivered by our core field operations, prior to corporate and other costs not directly related to our field operations. These metrics are also important because they guide us in determining whether our branch and regional administrative expenses are appropriately sized to support our caregivers and direct patient

care operations. Additionally, Field contribution and Field contribution margin determine how effective we are in managing our field supervisory and administrative costs associated with supporting our provision of services and sale of products.

#### *Adjusted corporate expenses*

Adjusted corporate expenses is a non-GAAP financial measure and is not intended to replace financial performance measures determined in accordance with GAAP, such as corporate expenses. Rather, we present adjusted corporate expenses as a supplemental measure of our performance. We define Adjusted corporate expenses as corporate expenses adjusted for the impact of certain other items that are either non-recurring, infrequent, non-cash, unusual, or items deemed by us to not be indicative of the performance of our core operations, including non-cash, share-based compensation; sponsor fees; acquisition-related and integration costs; legal costs and settlements associated with acquisition matters; COVID related costs, net of reimbursement; and other system transition costs, professional fees and other costs. As non-GAAP financial measures, our computations of adjusted corporate expenses may vary from similarly termed non-GAAP financial measures used by other companies, making comparisons with other companies on the basis of this measure impracticable.

We believe Adjusted corporate expenses is helpful in highlighting trends in our corporate support function, which can vary from year to year. We use Adjusted corporate expenses to make business decisions in determining whether or not our corporate expenses is appropriately sized to support our caregivers and direct patient care operations. Excluding the aforementioned items from corporate expenses that are either non-recurring, infrequent, non-cash, unusual, or items deemed by us to not be indicative of the performance of our core operations allows us to evaluate adjusted corporate expenses in relation to the support necessary for our caregivers and direct patient care operations.

#### *Adjusted net income and Adjusted net income per diluted share*

Adjusted net income represents net income (loss) as adjusted for the impact of GAAP income tax, goodwill, intangible and other long-lived asset impairment charges, non-cash share-based compensation expense, sponsor fees, loss on extinguishment of debt, interest rate derivatives, acquisition-related costs, integration costs, legal costs, COVID-related costs net of reimbursement, ABA exited operations, other system transition costs, professional fees and certain other miscellaneous items on a pre-tax basis. Adjusted net income includes a provision for income taxes derived utilizing a combined statutory tax rate. The combined statutory tax rate is our estimate of our long-term tax rate. The most comparable GAAP measure is net income (loss).

Adjusted net income per diluted share represents adjusted net income on a per diluted share basis using the weighted-average number of diluted shares outstanding for the period. The most comparable GAAP measure is net income (loss) per share, diluted.

Adjusted net income and Adjusted net income per diluted share are important to us because they allow us to assess financial results, exclusive of the items mentioned above that are not operational in nature or comparable to those of our competitors.

The following footnotes are applicable to tables above that reconcile (i) Net loss to EBITDA and Adjusted EBITDA, (ii) Corporate expenses to Adjusted corporate expenses and (iii) Net loss to Adjusted net income. The adjustments to reconcile Corporate expenses to Adjusted corporate expenses only represent the amounts that were recorded within Corporate expenses.

- 1) Represents annual management fees payable to our sponsors under our Management Agreement as defined in Note 18 – *Related Party Transactions* within the notes accompanying our consolidated financial statements included in our Annual Report on Form 10-K. The Management Agreement terminated in accordance with its terms upon completion of our initial public offering.
- 2) Represents income and (expense) associated with interest rate derivatives not included in interest expense, net, which were included in other income (expense).
- 3) Represents (i) transaction costs incurred in connection with planned, completed, or terminated acquisitions, which include investment banking fees, legal diligence and related documentation costs, and finance and accounting diligence and documentation, as presented on the Company's consolidated statements of operations, of \$8.1 million and \$12.8 million for the three-month period and fiscal year ended January 1, 2022, respectively; and \$4.9 million and \$9.6 million for the three-month

period and fiscal year ended January 2, 2021, respectively, and (ii) corporate salary and severance costs in connection with our January 2020 corporate restructuring in response to a terminated transaction of \$0.0 million and \$2.5 million for the three-month period and fiscal year ended January 2, 2021, respectively; there were no such costs in fiscal year 2021.

- 4) Represents (i) costs associated with our Integration Management Office, which focuses solely on our integration efforts, of \$0.8 million and \$3.6 million of the three-month period and fiscal year ended January 1, 2022, respectively, and \$1.3 million and \$3.4 million for the three-month period and fiscal year ended January 2, 2021, respectively; and (ii) transitional costs incurred to integrate acquired companies into our field and corporate operations of \$4.2 million and \$13.9 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$3.5 million and \$5.2 million for the three-month period and fiscal year ended January 2, 2021, respectively. Transitional costs incurred to integrate acquired companies include IT consulting costs and related integration support costs; salary, severance and retention costs associated with duplicative acquired company personnel until such personnel are exited from the Company; accounting, legal and consulting costs; expenses and impairments related to the closure and consolidation of overlapping markets of acquired companies, including lease termination and relocation costs; costs associated with terminating legacy acquired company contracts and systems; and one-time costs associated with rebranding our acquired companies and locations to the Aveanna brand.
- 5) Represents legal and forensic costs, as well as settlements associated with resolving legal matters arising during or as a result of our acquisition-related activities. This includes costs associated with pursuing and resolving certain claims in connection with acquisition-related legal matters, as well as a \$50.0 million settlement received pertaining to one such matter in the first quarter of fiscal year 2020. It also includes costs of \$0.5 million and \$1.5 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$0.6 million and \$3.0 million for the three-month period and fiscal year ended January 2, 2021, respectively, to comply with the U.S. Department of Justice, Antitrust Division's grand jury subpoena related to nurse wages and hiring activities in certain of our markets, in connection with a terminated transaction.
- 6) Represents costs incurred as a result of the COVID-19 environment, primarily including, but not limited to, (i) relief, vaccine, and hero pay provided to our caregivers; staffing and retention related incentives to attract and retain caregivers in the midst of the Omicron surge; and other incremental compensation costs; (ii) sick leave for our caregivers required by OSHA's Emergency Temporary Standard, costs required to comply with federal, state and local vaccination mandates and testing requirements, and worker compensation costs for mandated quarantine time; (iii) incremental PPE costs; (iv) salary, severance and lease termination costs associated with workforce reductions necessitated by COVID-19; and (v) costs of remote workforce enablement, all of which totaled \$14.5 million and \$19.0 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$7.4 million and \$20.1 million for the three-month period and fiscal year ended January 2, 2021, respectively; net of temporary reimbursement rate increases provided by certain state Medicaid and Medicaid Managed Care programs which approximated \$0.0 million and \$0.1 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$1.2 million and \$4.3 million for the three-month period and fiscal year ended January 2, 2021, respectively.
- 7) Represents the results of operations for the periods indicated related to the ABA Therapy services business that we exited as a result of the COVID-19 environment, as well as one-time costs incurred in connection with exiting the ABA Therapy services business.
- 8) Represents (i) costs associated with the implementation of, and transition to, new electronic medical record systems, billing and collection systems, business intelligence systems, duplicative system costs while such transformational projects are in-process, and other system transition costs of \$4.1 million and \$5.6 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$2.1 and \$2.8 million for the three-month period and fiscal year ended January 2, 2021, respectively; and (ii) professional fees associated with preparation for Sarbanes-Oxley compliance, advisory fees associated with preparation for and execution of our initial public equity offering, and advisory costs associated with the adoption of new accounting standards, of \$0.2 million and \$4.5 million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$2.3 million and \$2.6 million for the three-month period and fiscal year ended January 2, 2021, respectively; and (iii) certain other costs or (income) that are either non-cash or non-core to the Company's ongoing operations of \$(0.9) million and \$(1.5) million for the three-month period and fiscal year ended January 1, 2022, respectively, and \$(0.3) million and \$(0.5) million for the three-month period and fiscal year ended January 2, 2021.
